

Transcend, a nonprofit association, represents the interests of small business and helps them through daily business life, with primary focus on their human resources needs, compliance solutions and having the right resources to thrive in the Michigan business community.

Transcend also works directly with local chambers of commerce and associations to enhance their membership experience for their members with fifty or fewer employees and provide additional value and resources to them.

For many small businesses, the current health insurance landscape provides you and your employees with limited choices and flexibility. **TranscendAHP** was created as a health insurance solution that pools members together with the benefit of providing lower premiums and expanded benefits that currently only large businesses can obtain.

**TranscendAHP** allows small businesses to attract and retain top talent by offering a robust health insurance package with affordable rates.

To provide you with a more competitive set of solutions, **TranscendAHP** has collaborated with Blue Cross® Blue Shield® of Michigan and Blue Care Network to offer a multiple employer welfare arrangement designed as a fully-insured benefit option for businesses with 50 or fewer enrolled contracts, including sole proprietors.

All licensed health insurance agents can quote a **TranscendAHP** plan for their customer. To receive a quote, please speak to your agent. If you need to be connected with an agent, please contact us at 877-888-6020 or [info@transcendmichigan.org](mailto:info@transcendmichigan.org).
